## SUMMARY

Computer Engineering and Informatics student, eager to join the software developer community. Ready to apply my skills and develop new ones through practical work. Interested in frontend engineering, machine learning and database development.

## EXPERIENCE

### **Algorithmics Greece** - *Tutor*

JULY 2025 (SUMMER CAMP)

- Taught a small class of kids aged 7-9 years old the basics of coding with Scratch.

## VOLUNTEERING

### **ACM Student Chapter, Patras** - *Web Developer*

FEBRUARY 2024 - MAY 2025

- Made use of the WordPress platform to develop a user-friendly environment.
- Displayed good coding knowledge by incorporating HTML elements in WordPress.

### **IEEE Student Branch, Patras** - *IT Committee*

OCTOBER 2024 - NOW

- Became a part of a big PR team, where I worked with other committees to maintain the existing website using WordPress.
- Became a member of an organization team for a cybersecurity event in March 2025, taking initiative in developing a temporary website used specifically for the specific event.

---

## EDUCATION

**University of Patras, Patras** - *Computer Engineering & Informatics*

OCTOBER 2023 - PRESENT

## PROJECTS

- **Compiler for HTML Variant**- *Flex, Bison, C*
- **Learning Augmented Binary Interpolation Search** - *Python*
- **Perceptron** - *Python*
- **Database for a Travel Agency** - *MySQL*
- **Personal Website** - *HTML, CSS (hosted by GitHub Pages)*

For more projects and my full portfolio, find me on [GitHub](#) or into the dedicated subpage of my [personal website](#). (Currently this subpage is unavailable, since my website is under construction. I apologize for the inconvenience. This issue will be resolved in the near future).
